

Shift Now Sales Operating System (SOS) Course Outline

The Shift Now SALES OPERATING SYSTEM (SOS) takes a holistic approach to helping entrepreneurial companies achieve their sales and profit objectives.

The system is backed by over 25 years of research and experience and embraces many of the sales concepts, practices, processes, principles, and disciplines that have proven successful over decades of business changes and industry disruptions.

The system is designed to help entrepreneurial companies achieve three things:

CUSTOMER FOCUS AND INTIMACY™. Because the system is built for entrepreneurial companies to make the shift from simply 'selling products' to building deep insights with customers.

CLARITY AND ACTION™. Because we facilitate the right mix of simple concepts, proven practices, and practical tools to move from strategic, marketing and sales confusion, to clarity and to disciplined action.

FAST-LASTING™ RESULTS. Because our SHIFT Activators™ are thought leaders, real go-to people, who can guide, facilitate, and train to turn great ideas into real results.

There are forty specific tools in the SOS which are covered in sixteen class-room setting courses. Each course is designed to help the individual and the company to understand the importance of each tool and to master the use of each tool.
